

# Building Your Professional Portfolio

## GitHub Projects

- Well-documented repositories
- Clean code with README files
- Live demos and notebooks
- Regular commits & activity

## Publications & Writing

- Conference papers (NeurIPS, ICML)
- Journal articles & preprints
- Technical blog posts (Medium, Dev.to)
- Tutorial notebooks & guides

## Competitions

- Kaggle healthcare challenges

## Open Source Impact

- Contribute to major libraries

- DREAM biomedical competitions
  - Hackathons (health-focused)
  - Grand Challenges in medical imaging
- Maintain your own packages
  - Fix bugs & improve documentation
  - Engage in code reviews

⌚ **Networking Strategy:** LinkedIn (500+ connections) • Twitter/X (share insights) • Conferences (present work)  
• Local meetups
